LIST OF PAPERS

I. Marsh, Gordon.—Effect of Temperature upon the Inherent Potential of Valonia. Pages 1-15, 3 text-figures. (May 6, 1936.)

II. Smith, H. G.—Contribution to the Anatomy and Physiology of *Cassiopea frondosa*. Pages 17-52, 1 plate, 20 text-figures. (July 24, 1936.)

III. Leitch, James L.—The Water Exchanges of Living Cells. IV: Further Studies on the Water Relations of the Eggs of the Sea-urchin, *Echinometra lucunter*. Pages 53-70, 5 graphs. (July 24, 1936.)

IV. Payne, Fernandus.—Early Development of *Ptychodera bahamensis*. Pages 71-76, 2 plates. (July 24, 1936.)

V. Hess, Walter N.—Reactions to Light in *Ptychodera bahamensis* Spengel. Pages 77-86. (August 1, 1936.)

VI. Steward, F. C., and J. C. Martin.—The Distribution and Physiology of *Valonia* at the Dry Tortugas, with Special Reference to the Problem of Salt Accumulation in Plants. Pages 87-170. (October 15, 1937.)

VII. Harris, John E.—The Mechanical Significance of the Position and Movements of the Paired Fins in the *Teleostei*. Pages 171-189, 2 plates. (October 15, 1937.)

VIII. Darby, Hugh H., E. R. Fenimore Johnson, and George W. Barnes.—Studies in the Absorption and Scattering of Solar Radiation by the Sea. Spectrographic and Photo-electric Measurements. Pages 191-205, 1 plate. (October 15, 1937.)

IX. Yonge, C. M.—Studies on the Biology of Tortugas Corals. III. The Effect of Mucus on Oxygen Consumption. Pages 207-214. (October 30, 1937.)
